Sympathy & Funeral Arrangements

Saying goodbye is never easy and choosing farewell flowers can often be difficult.

All of our farewell flowers are unique and individual. They are created with great care and designed to be deeply personal, taking inspiration from a loved ones favourite place, colour, flower or even a hobby. We strive to create tributes inspired by nature and are especially fond of creating sustainable, foam free arrangements, which are particularly fitting for woodland burials and nature lovers.

Casket Sprays

Using seasonal flowers and foliage our casket sprays can be made to any colour pallet. Plants and bulbs can be incorporated if desired which can later be planted out as a memory.

Garden Visits

Often it is very personal to include flowers and foliage from a loved ones garden. A garden visit can be organised to pick flowers and foliage grown by them. This will incur an extra charge to cover time and travel.

Delivery

Delivery across Northumberland and the Scottish Borders can be arranged from £10.

Collection from my workshop just outside of Alnwick, can also be arranged.

Testimonials

Thank you on behalf of the family for Mum's beautiful funeral flowers. They were stunning; she'd of loved them. Everyone has commented on just how beautiful they were.

We've taken some to family graves and shared some out amongst ourselves. My daughter has bought a flower press and a resin kit to hopefully make some keepsakes too.

We knew from the moment we met you that you were going to do a wonderful job in looking after us.

Lynne, George, Gary & Andrew

I just wanted to say a big thank you for the beautiful flowers . They were perfect and felt joyful not sad and funereal. Colours and mix were just right .

Nikky

The flowers were stunning, Mum would have absolutely loved them. You managed to encapsulate her personality in such an elegant way. They brought such happiness to me and my sisters on such a terrible day.

Helen

I just wanted to drop you a line to say a huge, big THANK YOU for the wonderful flower arrangements you created for my darling friend. Her family were absolutely overwhelmed with how pretty they were and you completely captured the essence of their beloved wife, mother, sister, cousin and friend. The casket spray was so perfect and the overall picture of the willow coffin, the spray and the trugs will remain with me forever..... it certainly helped me and others to focus on something so spectacularly pretty between the tears at the funeral.

So many people commented on them and one friend said they were the prettiest flowers he had ever seen, even better than ones at weddings she'd been to. I made sure to tell everyone who was local in Northumberland that it was you and they were to come to you if and when they needed flowers for any event. The funeral was so desperately sad but thank goodness the sun shone, which certainly helped. Like all funerals, the wake was good fun and went on long into the night. We will all miss her so very much and we are all utterly bereft.

Friends and family took some of the flowers from the casket spray home with them and we brought the remains home and are drying quite a few of the flowers to give back to the family. I am also enjoying one of the trug displays and another great friend has the other.

Once again, a million thank yous for such beautiful arrangements

Natasha
